QID-26495

Hey Bob,

Thanks for enquiring and considering Energy SA to partner with you in reducing your energy costs!

Your Quote

We have tailored this quote just for you and have done our best to provide the most accurate pricing possible.

However, if we've got an incomplete picture of your requirements, let us know so we can fix it right up.

An Excellent Choice

We're thrilled you're exploring energy alternatives!

Thousands of South Australians have switched to solar and can vouch that your investment will have a lasting impact on your wallet and the planet.

What's Next?

1. Read carefully over the following pages.
2. Select the system you would like to proceed with.
3. Decide on payment options.
4. Contact me on 0430 392 663 if you would like to proceed with your quote.

I look forward to hearing from you!

Kind Regards,

Addie Kaljic

Because comfort shouldn't cost the earth.

 CERTIFIED
SOLAR
PROFESSIONAL

 SOUTH
AUSTRALIA

Your South Australian solar and air conditioning partners.

Our commitment to quality is like our coffee - always strong and never lacking.

We're so committed to quality that even Enphase and Tesla have awarded us for our work.

We want your online experience to be clean and simple, your customer experience to be warm and friendly, your products to be tailored to your home or office and your installation to be neat, seamless and prompt.

We're as local as you are.

You'll find our crew at the footy on the weekends, enjoying long walks on the beach or lining up for the donut of the month at Port Elliot Bakery. Our office is in Darlington, about 20 minutes south of Adelaide; pop in and see us anytime!

Your Options

Your quote includes pricing for the supply and installation of the following options, which have been chosen to best suit your needs.

Option 1

- 1 x Sigenergy SigenStor EC 10.0SP 10kW String Inverter(s)
- 1 x Sigenergy Backup Gateway HOMEMAX SINGLE PHASE 0kWh Battery(s)
- 1 x Sigenergy SigenStor Bat 8KWH LIFEP04 8.06kWh Battery(s)

Included Allowances (if applicable)

- 1 x Full Home Back Up

Option 2

- 1 x Sigenergy SigenStor EC 10.0SP 10kW String Inverter(s)
- 1 x Sigenergy Backup Gateway HOMEMAX SINGLE PHASE 0kWh Battery(s)
- 1 x Sigenergy SigenStor Bat 16KWH LIFEP04 16.12kWh Battery(s)

Included Allowances (if applicable)

- 1 x Full Home Back Up

Option 3

- 1 x Sigenergy SigenStor EC 10.0SP 10kW String Inverter(s)
- 1 x Sigenergy Backup Gateway HOMEMAX SINGLE PHASE 0kWh Battery(s)
- 1 x Sigenergy SigenStor Bat 24KWH LIFEP04 24.18kWh Battery(s)

Included Allowances (if applicable)

- 1 x Full Home Back Up

SIGENERGY

5 in One. Fully Integrated.

Integrating Solar Inverter, EV DC Charger, Battery PCS, Battery Pack, and EMS into one powerful energy system - this is our revolutionary 5 in One Home ESS.

Scalable on Demand

Whether for home or business, its unique modular and stackable design allows it to be truly scalable on demand and flexible in configuration.

Backup Your Home

Optional whole of home backup when paired with gateway, including three phase.

AI Optimized

Efficiently support your energy needs with a tailored plan that saves costs and promotes sustainability.

V2X Coming Soon!

Future-ready with V2H (Vehicle-to-Home) and V2G (Vehicle-to-Grid), enabling virtual grid expansion and 100% green power charging. Get ready for the future!

Sigenenergy

SigenStor

Add a Battery & Supercharge Your Savings!

Add a 16.12kWh Sigenergy Battery to your solar system & unlock a major discount with the Federal Battery Rebate.

8 Steps to Installation

Choose your system.

Pay a deposit.

Once you have confirmed the system, we will send you an invoice. A deposit is required to start the rest of the process.

We contact SA Power Networks.

We contact SA Power Networks (SAPN) on your behalf to ask for permission to install the system at your premises. Approval typically takes 2 weeks.

We book the installation date.

Installation is typically 2-8 weeks after SAPN approval.

We contact your retailer.

We request a change to your metering with proof of SAPN's approval. If you haven't received notification from your retailer within 7 days, it's worth contacting them to make sure your request hasn't been lost in transit.

The system is installed.

The balance is paid after completion.

Your retailer changes the meter.

The changeover typically takes less than 30 business days. However, if the meter has not been changed prior to installation, it's worth following up your retailer again.

get started.**

Terms & Conditions

General // Inverter and panel model shown may vary. Estimated Energy Savings is an estimate based on the details provided by you, the customer. Where you have not specified a Daily Supply Charge, Rate of Power or Feed in Tariff, these are based on current pricing from AGL's current rates. The power output of a solar PV system depends on its efficiency, size and location. We have used the average daily production of common grid-connected systems in Adelaide, based on recommendations from the Clean Energy Council (CEC): <http://bit.ly/cec-accred>. Energy SA is not liable for the supply or quality of supply of internet/wi-fi.

STCs // Where STCs are applicable, the current STC spot price is \$34.00. As the STC spot price is subject to change, any variance more than 5% will be passed on and reflected in this quote.

Extra Charges // Other charges may include (if not already specified): Mainswitch, Meter Isolator, Split Array (Multiple Roof Faces), Multi Storey, Roof Pitch, Roof Construction, Within 50km of Adelaide CBD. Energy SA is not liable for non-compliant switchboards or the costs associated with their repair/upgrade.

Quote Validity // This quote is valid for 14 days from Date of Issue.

A complete list of Terms & Conditions will be attached to the contract of sale. Alternatively you may visit: <https://energysa.com.au/terms-conditions>.
